

The Family Medicine Residency Program at Mercy Medical Center Merced, part of the UC Davis Network of Affiliated Residencies, is recruiting for faculty positions with the potential for advancement to associate program director. Have the best of both worlds—join a dynamic private practice faculty group that provides the full scope of family medicine, combined with teaching in an 8-8-8 residency program with full 5-year accreditation. You will be able to craft a career that suits your needs, you can do ICU/hospital care, work in the ED, deliver babies, or focus on outpatient clinical care with residency teaching. The faculty practice is well funded, with over 40 physicians, and a great support network. The hospital is building a brand new replacement hospital, slated to open in May, 2010. The community has many family opportunities, and the newest University of California is located in Merced, with plans to start a medical school in the next 5 years.

Family Medicine Faculty Position

The UT Jackson Family Medicine program is seeking an energetic, enthusiastic teaching faculty. Duties include videotaping of resident/patient encounters and development of each resident's competency in interpersonal skills. This position will have oversight of community medicine to include population epidemiology, public health statistical information, community-based disease screening, and prevention and health promotion. This position will implement development of a program for monitoring resident fatigue and well being and will also work with patient care. The position is full-time and must have experience in public health and interest in resident development. This is a tremendous opportunity for a talented individual. Academic rank and salary are commensurate with qualification and experience.

Interested applicants should submit a cover letter and CV to

**Dr David L. Maness, Professor and Chair,
Department of Family Medicine,
1301 Primacy Parkway, Memphis, TN 38119**

The University of Tennessee is an EEO/AA/Title VI/Title IX/Section 504/ADA/ADEA institution in the provision of its education and employment programs and services.

The University of Wyoming Family Medicine Residency Program at Casper (UWFPRPCasper) seeks a BC Family Physician (MD or DO) for a full-time faculty position.

UWFMRP-Casper is a well-established, community-based, dually accredited program (8-8-8), with a strong mission to train physicians for rural and frontier practice settings. Faculty responsibilities include resident supervision in inpatient and outpatient settings, didactic teaching, scholarly and administrative duties, and direct patient care. Applicant must be board certified in family medicine (ABFM or AOBFP). Applicants with teaching experience and/or rural practice experience are preferred. OB experience is a plus. The program is based at the Community Health Center of Central Wyoming (CHCCW), and affiliated with Wyoming Medical Center, the state's central referral hospital. Competitive salary, excellent benefits, and academic rank commensurate with experience are offered.

The University of Wyoming Family Medicine Residency Program at Casper and the Community Health Center of Central Wyoming are equal opportunity employers.

Applications should include CV and three references. Please send to:
